

What Are You Doing On Your Next Summer Vacation?

Learn What It Takes to Be a Leader in Biomedical Research

TGen Bioscience Leadership Academy

TGen Bioscience Leadership Academy is a two-week summer program serving 20 Arizona high school students.

Students learn directly from TGen scientists and staff about their groundbreaking research in cancer, neurological disorders, diabetes, and infectious disease. Explore:

- Hot topics in the biosciences
- Basic lab and technical skills
- Clinical trials and precision medicine
- Experimental design
- Bioethics
- STEM professional development
- Leadership skills, and **so much more!**

Each TGen Bioscience Leadership Academy graduate will receive a \$1,000 scholarship.
